According to the Regulation (EC) No 1907/2006(REACH), OPPO is defined as a producer of articles and has done its best to meet requirements of REACH. Details are as follows:

### Registration

According to Article 6, General obligation to register substances on their own or in mixtures. Any manufacturer or importer of a substance, either on its own or in one or more mixture(s), in quantities of one ton or more per year shall submit a registration to the Agency. **As a producer of articles, OPPO does not apply this requirement.**

According to Article 7, any producer or importer of articles shall submit a registration to the Agency for any substance contained in those articles, if both the following conditions are met:

- (a) the substance is present in those articles in quantities totalling over one tonne per producer or importer per year;
- (b) the substance is intended to be released under normal or reasonably foreseeable conditions of use.

**As far as we know, there is not any substance contained in article intended to be released in this product.**

### Notification

According to Article 33, any supplier of an article containing a substance meeting the criteria in Article 57 and identified in accordance with Article 59(1) in a concentration above 0.1 % weight by weight (w/w) shall provide the recipient of the article with sufficient information, available to the supplier, to allow safe use of the article including, as a minimum, the name of that substance.

**OPPO has assessed the SVHC may be contained in this product above 0.1 % weight by weight (w/w).**
