

NOTE:

- 1.Material: TPU(MRI-95AY-3)
- 2.After each hole position mold is matched, it is centered as far as possible relative to the hole of the whole machine, and the hole should not be blocked.
- 3.Dimensions without tolerances are controlled according to the tolerances without tolerance table.
- 4.Sharp edges, oil stains and deformation are not allowed on the product surface.
- 5.Defects such as sharp edges, oil stains, gaps and deformations are not allowed in the opening.
- 6.The shape and size of the protective shell ensure that the function is qualified and the whole machine assembly is qualified.
- 7.The appearance effect meets the requirements of ID CMF documents.
- 8.The quality of raw materials meets the requirements of RoHs and Reach agreement.
- 9.The belt * is the key size, and the "ST" is the CPK size, requiring CPK>=1.33
