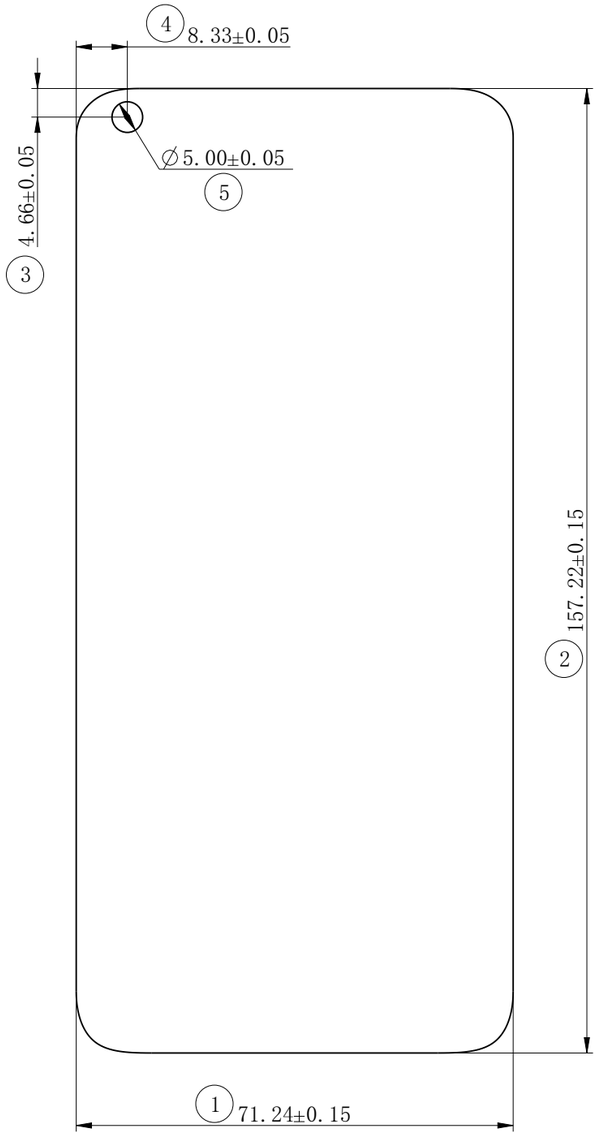
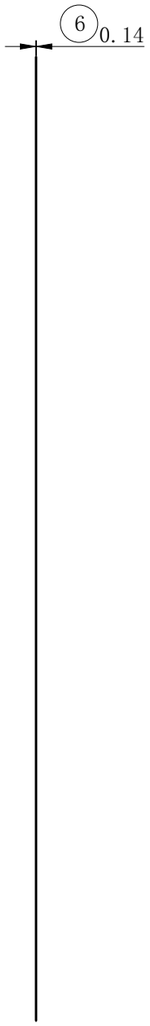
Tolerance of Linear Dimension					
>	≤	Plastic	Metal	DieCut	Rubber
0	3	±0.05	±0.05	±0.10	±0.10
3	6	±0.07	±0.05	±0.10	±0.10
6	30	±0.10	±0.10	±0.15	±0.15
30	120	±0.15	±0.15	±0.25	±0.25
120	～	±0.20	±0.20	±0.30	±0.3%
Tolerance of Angular Dimension ±0.5°					





Notes:

1. Drawing dimensions are used to check the shape, function and assembly of parts.
2. Material: HC+PET+UV Layer+TPU+Silicone, T=0.14mm.
3. The edge of the die-cutting part shall be neat without obvious fiber and fine chip residues, and without convex or concave dots/imprints/pressing/scratches, white/black spots, filaments and other appearance defects.
4. Those marked with "*" are the key controled dimensions. For those unmarked dimension, refer to 3D; and for those unmarked tolerance, refer to tolerance table.
5. Part code:4890042
